

Appl. No. 10/056,211

Amdt. dated September 5, 2003

Reply to Office Action of April 8, 2003

Amendments to the Specification:

Page 23, line 2, replace the paragraph with:

This mold comprises a pair of a ~~ma~~ male mold (7) and a female mold (8).

Generally, one of the mold is mounted to a clamping device such as a press device and another is fixed so that the molds can be opened and closed relatively in a vertical or horizontal direction.
